

PARTNERS

[HOME](#) / [PARTNERS](#)

Aquatherm

We produce and distribute polypropylene (PP-R) pipe for use in pressurized plumbing and mechanical systems of all sizes. Our products are reliable, competitively priced, and environmentally friendly.

Bell & Gossett

Bell & Gossett is a leading manufacturer of pumps, valves, heat exchangers and accessories for plumbing, wastewater and HVAC — including steam and heat transfer — applications.

BoilerMag

The BoilerMag range is designed and manufactured by Eclipse Magnetics – a pioneer in magnetic filtration systems.

With 100 years of experience in the design and manufacture of high performance magnetic systems, we supply critical equipment to some of the leading names in the most demanding industries.

Cemline

CEMLINE CORPORATION® has manufactured tanks, pressure vessels, packaged water heaters, unfired steam clean generators, and replacement tube bundles to suit customer requirements since 1935. Our products are used for the storing and heating of water and liquids in plumbing and heating systems and industrial processes.

Danfoss

The Danfoss Group is a manufacturer of products and services used in cooling food, air conditioning, heating buildings, controlling electric motors, compressors, Variable frequency drives and powering mobile machinery.

Domestic Pump

Domestic Pump is B&G's packaged pump solution to steam condensate handling.

DuraVent

Consistently the first to market with new innovations in venting systems, DuraVent has captured a leadership position in emerging markets. DuraVent has patents for several products and continues to design safe and technologically advanced venting.

Flow Conditioning Corp

Flow Conditioning is a manufacturer of specialty fluid handling products, in business since 1966. We manufacture Hydronic Indication Systems, Double Suction Diffusers and Flange Adapters.

Goulds Water Technology

Goulds Water Technology combines over 155 years of pump experience with the most modern design and manufacturing systems, plus a total commitment to quality based on full performance testing of every pump we make.

HBX Control Systems

HBX Control Systems are designed, engineered and manufactured in Canada to accommodate a wide range of hydronic heating and cooling needs commonly found in today's residential, commercial and industrial design applications.

Hoffman Specialty

Hoffman Specialty, a Xylem brand, offers a wide range of products for steam and hydronic systems, including: vents & vacuum breakers, steam traps, regulators, valves, and strainers. These products are used for residential and commercial applications.

Lochinvar

Lochinvar is the leading producer of energy-efficient boilers, water heaters, pool heaters and commercial package systems. We focus solely on serving our customers and offer them a product portfolio that delivers unmatched quality, performance and application flexibility. Lochinvar has a solution for all your water heating needs.

McDonnell & Miller

The range of McDonnell & Miller includes several products for the petrochemical and process industries. McDonnell & Miller specializes particularly in Boiler Controls and power switches. McDonnell & Miller in 1924 saw a means to improve low pressure steam boilers.

Metraflex

Vibration isolation. Noise dampening. Thermal expansion and contraction. Pipe alignment and seismic movement. Pump connections and flow conditioning. Metraflex has been supplying piping specialty products to the commercial HVAC industry since 1958.

Robur

ROBUR Corporation was founded in 1991 by the ROBUR Group, a leading Italian Manufacturer of advanced heating and cooling technologies. Products include: boilers, chillers, and heat pumps.

Sentinal Products

We protect hydronic heating systems by providing best practice solutions and products. Sentinel is a company with a clear goal: we offer water treatment products and services that provide the best lifetime protection for heating and hot water systems.

Wessels

Wessels has developed an excellent reputation for delivering high quality products for hot or chilled water HVAC systems. Every part that goes into our products is tagged and is traceable throughout the life of the product. To ensure international standards of quality, Wessels is **ASME certified** and meets the **Japanese Inspection Standard (JIS)**. As a result, we're recognized for delivering a wide breadth of high quality pressure vessels that are cost competitive and delivered on a timely basis.

Zilmet

Zilmet is one of the oldest and largest expansion tank manufacturer in the world. Established in Italy in 1962, Zilmet is an international manufacturer of quality expansion vessels, pressure tanks and plate heat exchangers with several branches and worldwide distribution.

WHO WE ARE

Wallace Eannace is changing the Plumbing and HVAC world!

For over 90 years Wallace Eannace has served as advisor, technical support, and partner to firms engaged in the plumbing and HVAC industries. As a leading expert in hydronic system solutions, Wallace Eannace utilizes its training, education and best-in-class products to aid in bringing projects in on-time, under budget and with the highest operational efficiency.
