MANUFACTURERS REPRESENTATIVE

Bell & Gossett is a leading manufacturer of pumps, valves, heat exchangers and accessories for plumbing, wastewater and HVAC — including steam and heat transfer — applications.

Caleffi an Italian leader in hydronic system components and controls. Offering high-quality valves, manifolds, hydraulic separators, balancing and mixing devices, and smart controls for heating, cooling, plumbing and solar systems, Caleffi delivers reliable, energy-efficient solutions that simplify installation and optimize system performance.

CEMLINE CORPORATION manufactures tanks, pressure vessels, packaged water heaters, unfired steam clean generators, and replacement tube bundles.

Danfoss is a manufacturer of thermostat valves for steam and water hydronic systems.

Domestic Pump is B&G's packaged pump solution to steam condensate handling.

Ephoca is a company dedicated to the conception, development and production of solutions for heating, ventilation and air conditioning. Over 15 years of experience in the climate comfort sector with a clear goal: to grow through innovation.

Fabtek is a leading American manufacturer of stainless steel boiler systems, including: tanks, pumps, and accessories.

Flow Conditioning is a manufacturer of Hydronic Indication Systems, Double Suction Diffusers and Flange Adapters.

Founded in 1906, Galletti is a global manufacturer of innovative, energy-efficient, air-to-water and water-to-water, modular heat pump-chillers.

Goulds Water Technology offers pressure booster packages, waste water pumps, centrifugal pumps & complete packaged system solutions.

Hoffman Specialty offers products for steam and hydronic systems, including: vents & vacuum breakers, steam traps, regulators, valves, and strainers.

MANUFACTURERS REPRESENTATIVE

Lochinvar is the leading producer of energy-efficient boilers, water heaters, pool heaters, cogeneration systems, water and air source heat pump water heaters, and commercial package systems.

Since 1932, Maid O' Mist has been manufacturing the most complete line of air elimination valves in the industry. We offer fifteen models of air elimination valves, twenty models of steam valves and seven models of vertical/horizontal float operated water level controls to meet your hydronic, steam, solar and water application needs.

McDonnell & Miller offers boiler controls and power switches.

Metraflex offers vibration isolation, noise dampening, thermal expansion and contraction, pipe alignment and seismic movement, pump connections and flow conditioning.

Nupi offers a full range of pipes and fittings made of the most modern thermoplastic materials. Nupi has expertise in the development and production of piping systems for the plumbing, heating, and cooling sector for commercial, residential and industrial applications.

Panasonic offers ducted & ductless heat pump mini splits. These advanced cooling and heating systems provide the perfect energy efficient solutions for an entire home, addition or light commercial application.

Sentinel manufacturers water treatment products and services that provide the best lifetime protection for heating and hot water systems.

TISDALE MANUFACTURING
MODULAR HVAC & PLUMBING PACKAGES

Tisdale Manufacturing designs, manufactures, and commissions energy efficient, compact, modular HVAC and plumbing packages.

SINCE 1908
wessels
company

Wessels is a manufacturer of expansion vessels, pressure tanks, Glycol packages, air separators, buffer tanks, Flash tanks and custom fabrication. essels that are cost competitive and delivered on a timely basis.

Zilmet is a manufacturer of expansion vessels, pressure tanks and plate heat exchangers.
